

INDEX TO VOLUME 43

Anderson, J. M., Khavinson, D. and Lomonosov, V., Spectral properties of some integral operators arising in potential theory . . .	387
Asmar, N., Berkson, E. and Gillespie, T. A., Transference of weak type maximal inequalities by distributionally bounded representations	259
Axler, S., Interpolation by multipliers of the Dirichlet space . . .	409
Bankston, P., <i>H</i> -enrichments and their homeomorphism groups . .	127
Benson, D. J. and Carlson, J. F., Periodic modules with large period	283
Berkson, E., <i>see</i> Asmar, N.	
Blower, G., On the complete polynomial bounds of certain operators	149
Brandl, R., Caranti, A. and Scoppola, C. M., Metabelian thin <i>p</i> -groups	157
Cabrera, M. and Rodríguez, A., Nonassociative ultraprime normed algebras	1
Caranti, A., <i>see</i> Brandl, R.	
Carlson, J. F., <i>see</i> Benson, D. J.	
Caro, Y., On zero sum Ramsey numbers—complete graphs	175
Cassell, J. S., The asymptotic integration of a class of linear differential systems	9
Chatters, A. W., Hajarnavis, C. R. and Lenagan, T. H., Ideal arithmetic in affine PI rings	297
Chute Miller, C., Imprimitve automorphism groups	23
Ejiri, N. and Kotani, M., Minimal surfaces in $S^{2m}(1)$ with extra eigenfunctions	421
Farsi, C., <i>K</i> -theoretical index theorems for orbifolds	183
Fountain, J. and Gould, V., Straight left orders in rings	303
Fronček, D., Graphs with constant neighbourhoods of two independent vertices	313
Gillespie, T. A., <i>see</i> Asmar, N.	
Gil-Medrano, O., Michor, P. W. and Neuwirthner, M., Pseudo-Riemannian metrics on spaces of bilinear structures	201
Gould, V., <i>see</i> Fountain, J.	
Greaves, G., Power-free values of binary forms	45
Hajarnavis, C. R., <i>see</i> Chatters, A. W.	
Hall, J. I., Liebeck, M. W. and Seitz, G. M., Generators for finite simple groups, with applications to linear groups	441
Helmer, D. and Pym, J., Approximation by functions with finitely many discontinuities	223
Hollevoet, J., Quaegebeur, J. and Van Keer, S., Stone's theorem in C^* -algebras	227

Holroyd, F. and Miller, R. G. , The example that Heawood should have given	67
Khavinson, D. , <i>see</i> Anderson, J. M.	
Komjáth, P. , A lattice-point problem of Steinhaus	235
Kotani, M. , <i>see</i> Ejiri, N.	
Lenagan, T. H. , <i>see</i> Chatters, A. W.	
Liebeck, M. W. , <i>see</i> Hall, J. I.	
Lomonosov, V. , <i>see</i> Anderson, J. M.	
Lowen, R. and Robeys, K. , Completions of products of metric spaces	319
Mao, X. , Almost sure polynomial stability for a class of stochastic differential equations	339
Michor, P. W. , <i>see</i> Gil-Medrano, O.	
Miller, R. G. , <i>see</i> Holroyd, F.	
Mong, K.-C. , Polynomial invariants for 4-manifolds of type $(1, n)$ and a calculation for $S^2 \times S^2$	459
Muhly, P. S. and Solel, B. , Distance formulae in coordinatized operator algebras	73
Neuwirther, M. , <i>see</i> Gil-Medrano, O.	
Ohshika, K. , Geometric behaviour of Kleinian groups on boundaries for deformation spaces	97
Pym, J. , <i>see</i> Helmer, D.	
Quaeghebeur, J. , <i>see</i> Hollevoet, J.	
Robeys, K. , <i>see</i> Lowen, R.	
Robinson, P. L. , An infinite-dimensional metaplectic group	243
Rodríguez, A. , <i>see</i> Cabrera, M.	
Rogers, D. G. , Critical perfect systems of difference sets without components of size two	253
Rush, D. E. , Asymptotic primes and integral closure in modules	477
Saitô, K. , On C^* -algebras with countable order dense sets and tensor products of monotone complete C^* -algebras	349
Scoppola, C. M. <i>see</i> Brandl, R.	
Seitz, G. M. , <i>see</i> Hall, J. I.	
Solel, B. , <i>see</i> Muhly, P. S.	
Stöhr, R. , Homology of metabelian Lie powers and torsion in relatively free groups	361
Van Keer, S. , <i>see</i> Hollevoet, J.	
Vuorinen, M. , Conformally invariant extremal problems and quasi-conformal maps	501
Wright, J. D. M. , Borel envelopes of discrete transformation group C^* -algebras	113
Zhang, P. , On the weak nilpotency of H -spaces of sections	381
